### PROJECTS

#### Clika MVP | React.js, Typescript, Tailwind CSS, Rest APIs, Redux

- Led frontend development for a SaaS MVP platform, transforming Figma designs into responsive and scalable UI.
- Integrated authentication (email/password, Google OAuth), Stripe billing workflows, and metrics APIs for monitoring live jobs.
- Implemented critical features including subscriptions, account management, credit tracking, and role-based access (admin/user).

#### CloudRaft Service Desk | React.js, Supabase, Typescript, Tailwind CSS, Mantine UI

- Developed a full-stack client service desk App, featuring secure RBAC authentication, real-time ticket updates, and attachment handling.
- Built a responsive UI with advanced filtering, SLA tracking, and real-time chat support system

### EXPERIENCE

#### CloudRaft | Associate Full Stack Engineer

April 2025 - Oct 2025

- Led frontend development for a SaaS MVP platform, converting Figma designs into responsive, scalable UI.
- Integrated authentication, Stripe billing, and metrics APIs, while implementing core features like subscriptions, account management, and role-based access.
- Optimized performance by 20% through efficient request handling, reducing runtime errors, and building reusable components.
- Collaborated on full-stack architecture, wrote unit tests with Jest & React Testing Library, and ensured product scalability and reliability.

#### Travel Eco | ReactJS Developer Intern

Feb 2025- March 2025

- Developed a secure Admin Panel using ReactJS, TypeScript, Tailwind CSS, and Firebase 2FA with Redux for state management.
- Built interactive dashboards with Recharts and implemented a Rides Management System featuring search, filters, and pagination.
- Integrated React Pro Sidebar and React Router for seamless navigation while following clean architecture principles for scalability.

#### Capgemini - (FUEL) | Java Developer Intern

Feb 2024- May 2024

- Developed applications using Core Java, applying OOP principles (inheritance, polymorphism, encapsulation).
- Managed and manipulated data with MySQL, performing database design and SQL queries.

### EDUCATION

#### Deogiri Institute of Engineering and Management Studies | CGPA: 7.71

Graduation Year: 2024

B.Tech Electronics and Telecommunication

### TECHNICAL SKILLS

- **Languages:** JavaScript, Typescript, Java, C/C++, SQL
- **Frameworks:** Next.js, React.js, Tailwind CSS
- **Tools:** Git, GitHub, Vercel, Firebase, Supabase, Github Actions
